MOTION[®]

Continuing the legacy for the **last 16 years**

Hello Students,

I know it is tedious to opt which mode one should prefer for preparations. Whether to go for online mode or offline mode?

This was a matter of concern for me and my team as well on how to offer the best facilities in both mediums for Boards, Entrance exams, National and International Level Olympiads.

Moreover, situations have become more uncertain and challenging after the onset of the pandemic. Unlike other institutes, we decided to stand robust and offer the latest, improvised and advanced means for learning. Consequently, I feel proud to notify you that today Motion is efficiently operating an advanced Hybrid Teaching Methodology, integrating Kota Classroom with best Online Learning. This model consists of various e-learning features, including innovative animated Video Lectures, Video Solution & adaptive learning that develop students interest in academics at an early age. Apart from this, there are numerous benefits of opting for our hybrid model.

Perfect mix of **CLASSROOM** Program aided with technology for sure **SUCCESS**

Features which will keep you ahead in competition

Extensively learned faculties having Teaching experience of 16 years

In our **Classroom Batches**, you will be surprised to find out that our lecturers are the top ones in Kota coaching, having successfully assisted hundreds of students targeting engineering and medical entrance exams and achieving 2000+ highest positions in several exams. With **Online Support**, students have unlimited access to recorded and live lectures of these lecturers. Hence, we became the pioneers in offering live and recorded lectures.

Customization feature for Deep-Learning

In **Classroom Batches**, faculties guide and refer students to important books and topics for preparation. With **Online Support**, students get an exceptional feature of customization through Conceptual Problem Sheet (CPS). Motion is India's only institute offering this feature at an enormous level. Generally, students take mock tests covering different topics, but despite their efforts, they cannot score well. By analyzing & evaluating their performances, we discovered students were lacking in several subtopics and needed to practice them. Therefore, CPS is the best solution for every student's needs.

Exclusive Well-Researched & drafted Study Material

In **Classroom Batches**, students get access to the entire printed study material with a revision kit for better preparation. With **Online Mode**, students have the benefit of Motion Learning App where they can access 15000+ questions along with the solutions and theory for the entire syllabus.

Doubt-solving facilities

In **Classroom Batches**, students can interact with Classroom teachers during doubt-solving sessions. With **Online Support**, students get app doubt support where doubts are responded to by Subject Matter Experts within 24 hours.

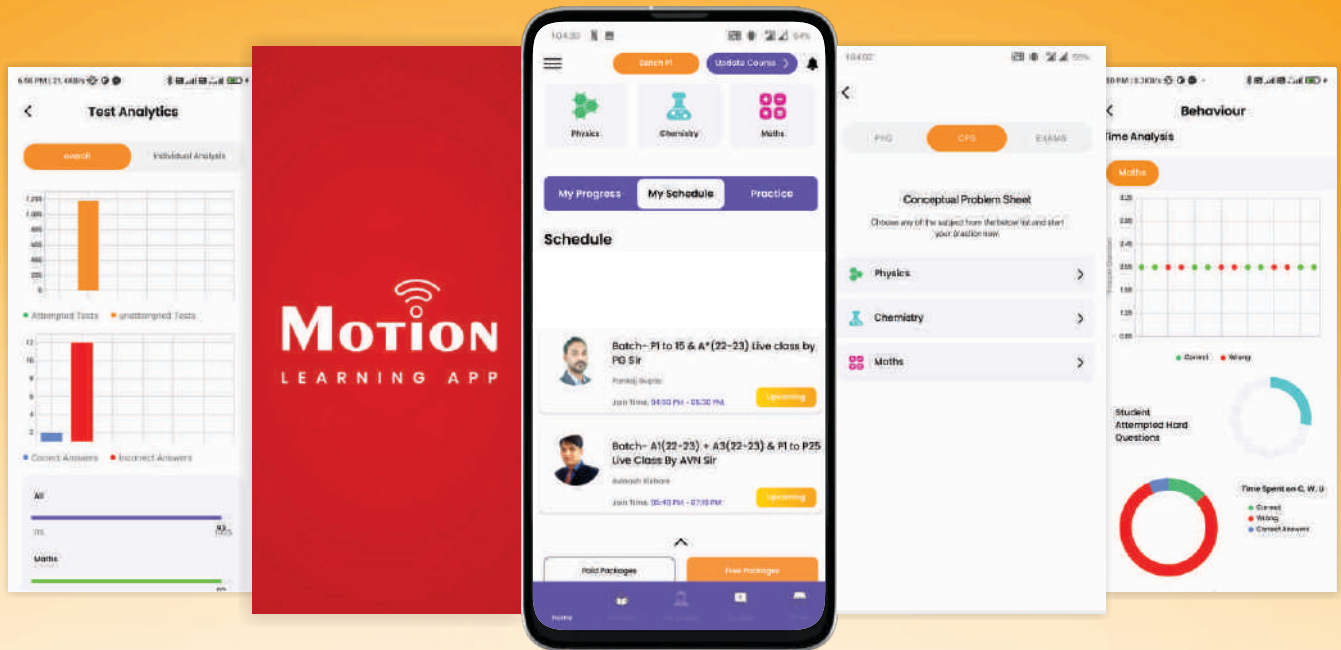

Consistent Communication with Students & Parents

In **Classroom Batches**, we regularly keep parents and students updated with the test score. In addition, we have a separate Academic Team located in Kota with whom individuals may coordinate at any time. **Online Support** also provides updates on student performance.

MOTION LEARNING APP

will accompany you in the journey of preparation till your selection

Climb the ladder and know How it works?

- ◆ Study with animated and best quality recorded lectures and solutions designed by Kota's best teachers.
- ◆ Use notes and DPPs for a quick revision and analysis.
- ◆ Customized test paper creating tool for improved practicing.
- ◆ Learn something new everyday for full preparation.
- ◆ Behavior is a value-added tool to check the consistency.
- ◆ Performance analysis and actual feedback to parents via App.
